

# HomeAgain® helps bring you and your lost pet back together

## Lost Pet Recovery Network

Your pet is listed in our national pet registry with photo, description, owner's contact information, and emergency contacts.

## Rapid Lost Pet Alerts

Dedicated Recovery Specialists send real-time lost pet alerts to volunteer veterinarians, shelters, and PetRescuers in the area.

## Personalized Lost Pet Posters

Create your Lost Pet Poster on the HomeAgain website and begin your search immediately.

## 24/7 Lost Pet Specialists

When your pet is found, HomeAgain is contacted and validates your pet's unique ID code and then contacts you to arrange the reunion.

## 24/7 Emergency Medical Hotline

Telephone assistance from licensed ASPCA veterinarians.

## Travel Assistance for Found Pets\*

Your HomeAgain membership covers up to \$500 in pet airfare when your dog or cat is found over 500 miles away.

## For the love of safety —

visit us online at [www.homeagain.com](http://www.homeagain.com) and learn more.

# Protect your pet with HomeAgain®

A microchip may be the most important gift you ever give your pet.

Microchipping provides the peace of mind that you've given your pet the permanent, lifetime ID he needs for the best chance to come home.

## Here's what you should know about microchips. They:

- **Do not** hurt your pet—  
no more discomfort than a vaccination
- **Do not** require surgery—  
a simple, one-time insertion with a syringe

## Did you know?

- Getting lost is the **#1** cause of death for pets
- **1 in 3** pets goes missing during its lifetime
- Without ID, **90%** of pets never return home

Losing a pet may be easier than you realize.

- Your pet digs under a fence or bolts through an invisible fence and escapes
- Thunderstorms or fireworks cause your pet to panic and flee
- While traveling, your pet wanders away into unfamiliar territory
- An emergency occurs and your pet gets lost in the turmoil
- A handyman accidentally lets your pet out
- Someone steals your pet while unattended

How a microchip works to bring your lost pet back home.

A microchip is much more reliable than a collar and a tag because there is no chance it will fall off. The microchip is a permanent ID that links your pet to you.

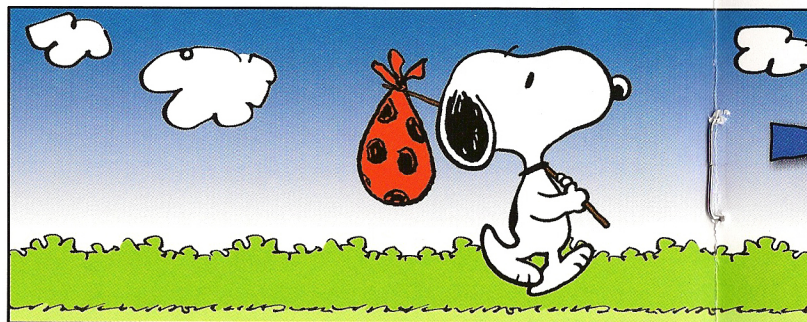

## Here's how it works:

- The microchip is inserted with a simple injection. The HomeAgain microchip is designed to make sure it does not move.
- Then, simply enroll your pet's ID code along with your contact information. Enrolling is what makes it possible for your pet to be positively identified
- If your pet is taken to an animal shelter or clinic, the staff will scan the microchip to read its unique ID code
- The staff will then call the appropriate registry with your pet's identified ID code
- As soon as your contact information is retrieved, you will be contacted and arrangements will be made to reunite you with your pet

**HomeAgain provides  
the best chance for a  
happy homecoming.**

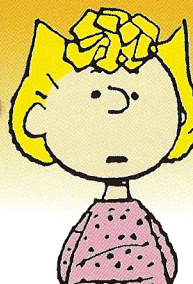

## The unthinkable happens

Your pet gets lost.

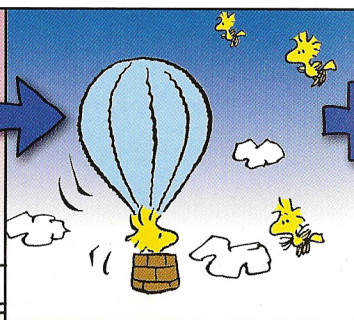

## Report your lost pet

The HomeAgain network goes into action to find, identify, and return your pet.

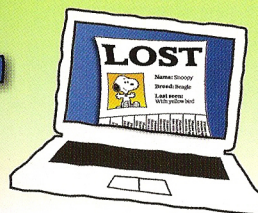

## Specialist sets the search in motion

Dedicated Recovery Specialists send real-time lost pet alerts.

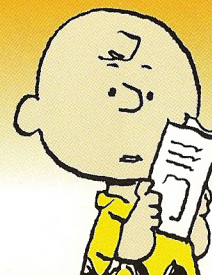

## PetRescuers are alerted

Local volunteer PetRescuers from our national network are notified to be on the lookout for your pet.

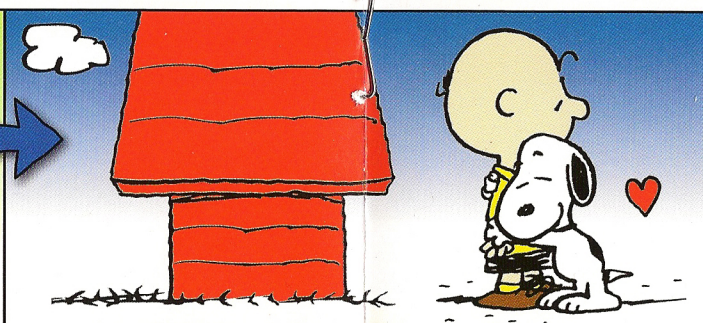

## Clinics and shelters are alerted

Volunteer facilities are given access to lost pet posters to help with the search.

## You get a list of local shelters

So you can start looking for your pet.

## Print your Lost Pet Poster

Go online to access your personalized poster.

## A HomeAgain happy ending — your pet is found

Thanks to the microchip that links your information to your lost pet, HomeAgain is contacted. And, as soon as we get that call, we contact you to arrange a happy homecoming.

## Enroll for comprehensive protection

Enrollment in the HomeAgain® database is the essential step that links your pet to you.

Once your pet's microchip is in place, register the microchip ID code along with your contact information in the HomeAgain national pet recovery database. Some veterinary clinics and shelters enroll the pet at the time of microchipping. You can ask if this has been done for you.

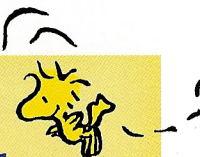

After registration, you will be able to complete your pet's profile, upload a photo, enter medical information, and add an alternative contact—all online. This information links your pet to you so that he or she can be returned home safely.

Even if your pet is already microchipped, you can still enroll in HomeAgain and receive all the benefits of membership.

**Until you register,  
your pet is not protected.**

That's why this step is so critical to reuniting you with your lost pet. Just go online to **www.homeagain.com** and get started.

Once you register, you can update your contact information at any time.

Only HomeAgain gives you big benefits as part of your annual membership.

Your pet's microchip comes with lifetime registration in the database as well as one year of HomeAgain membership. Benefits are then renewable on an annual basis.

### Membership includes:

- 24/7 Lost Pet Specialists
- Rapid Lost Pet Alerts
- Personalized Lost Pet Posters
- 24/7 Emergency Medical Hotline
- Travel assistance for found pets

### Did you know?

- HomeAgain recovers **10,000** lost pets each month
- With HomeAgain, more than **600,000** lost pets have come home
